Choose a location and login to OpenMRS Reference Application using valid credentials.

Step 1
Click on the homepage link in the upper left corner of the OpenMRS login page to begin creating a new account.

Step 2
Select "Registration Application".

Step 3
Enter the patient's name and gender.

Step 4
Enter the patient's address.

Step 5
Select the patient's relationship (if any).

Step 6
Confirm your submission.

Step 7
Enter the required demographics.

Step 8
Click on the submit button to complete registration.
