

Platform Release Notes 2.0.6

Note: This platform release requires Java 1.8 and above.

Release Date: 29 Nov 2017

This is a maintenance release for the OpenMRS Platform 2.0.x line. Anyone using a lower version of Platform 2.0.x should upgrade to this release.

What's New

OpenMRS Platform 2.0.6 is a maintenance release that fixes several bugs from Platform 2.0.5. There are two database changes when upgrading from 2.0.5 to this version.

1. Add unique index to uuid column in concept_reference_map
2. Add unique index to uuid column concept_reference_source

Thanks Angshuman Sarkar, Daniel Kayiwa, Dimitri R, Eric Henziger, Mark Goodrich and Rafal Korytkowski for these fixes.

Bug Fixes

Key	Summary	T	Created	Updated	Due	Assignee	Reporter	P	Status	Resolution
TRUNK-5239	findPropertiesFiles should include properties files in modules		2017-11-26	2017-12-20		Daniel Kayiwa	Daniel Kayiwa		Closed	Fixed
TRUNK-5224	After saving Order Group order_group_id foreign key is Null in orders table		2017-10-16	2017-10-26		Yusuf Akhond	Yusuf Akhond		Closed	Fixed
