

OpenMRS OCL Client Sprint 14

General information

Team Lead: Daniel Kayiwa

Sprint Lead: Godswill Onuoha

Timeline

Start date: 21st January 2019

End date: 7th February 2019

Participants

- Godswill Onuoha
- Abulo John Joshua
- Colline Waitire
- Allan Guwatudde
- Samuel George
- Ijeomah Collins
- Jude Atuhaire
- Bruce Makaaru
- Ayeshmantha Perera

Sprint Goals

The main goal of the sprint is to complete and close all open tickets from the previous sprint, and implement feedback as they arrive. In this sprint, we should also test the functionalities of the application and fix bugs that may exist, in preparation for the MVP Release

Sprint Dashboard

How To Participate

Add your name to the list on this wiki page (with any comments about your availability). If you want to join after the sprint has started just join the IRC channel mentioned above and say hello.

The general process:

1. New to OpenMRS sprints? Want help getting started? Join [IRC](#) and say "???: I'd like to participate in the sprint!". If you get no response, just ping any of the above sprint participants as per the IRC tips at <http://en.flossmanuals.net/openmrs-developers-guide/support/>
2. Pick a ticket from the available tickets in the top-left of the sprint dashboard page at:
 - Make sure it does not depend on a ticket that is incomplete.
3. If you have any questions about the ticket, ask on the group chat.
4. Do the ticket. See our [HOWTO](#) for git. **Sprint specific git HOWTO for devs with push rights: whatever works for you :-)** If you don't like pull requests, don't send them. Commit and push directly to the main repo. If you do like pull requests, fork the main repo and send pull requests, but merge them right after. My favorite way is to work on the main repo, but create local branches (without pushing them to the main repo). Merge branches locally to the master and push to the main repo.
5. [Join the daily scrum to share your updates](#)

During Project Notes for the sprint

To be added while the project progresses

Sprint Retrospective:

To be added after the end of the sprint.
