- 1.10 update
- 1.11 update
- Remaining September Goals
- Review of 📄 **RA-328** - Create static demo data for the reference application  `ACCEPTED`
- OCL-CIEL Subscription Module
- Work Process Progress

## Discussion items

| Time | Item | Who | Notes |
|------|------|-----|-------|
| | Allergy Sprint Update | | <ul><li>We need to get others (volunteers) beyond soldev on this sprint to keep pace</li><li>Need testers, currently doing all the testing</li><li>Expectations over the next week<ul><li>More tickets in development</li></ul></li></ul>Daniel Kayiwa 📄 **RA-330** - Create Allergies UI module `ACCEPTED` complete? Ready for test?<ul><li>Don't need a specific update really on this ticket but an update on the tickets that are ready for test.</li></ul> |
| | 📄 **RA-332** - Test out the Diagnosis search widget against the full CIEL dictionary `WAITING FOR ANALYSIS` | | <ul><li>Unknown User (darius) and Burke Mamlin with Jakub's help will move this to 2.1 as there is more work than expected in this.</li><li>More discussions to happen later.</li></ul> |
| | 1.10 Update | | <ul><li>Still have performance tickets to complete</li><li>A new version of 1.10 should be released to production</li><li>Goal would be to release late next week.</li><li>4 tickets are currently open in the release</li></ul> |
| | 1.11 Update | | <ul><li>Not many volunteers to help with testing</li><li>Currently about half way done, but looking like we will come short of complete</li><li>There are tickets that have been tested and some have failed so there is also additional work to be done there.</li><li>It will take new volunteer effort or reallocated core dev time to resolve this issue.</li><li>Daniel Kayiwa to help build a list for us to help communicate testing needs</li></ul> |

| | September Goals | | <ul><li>Status Update to stay in 2.1<ul><li>CEIL Dictionary drop down in priority several steps</li><li>Improvements and permissions should drop</li><li>Form Entry, moves up</li><li>Reporting, moves up</li><li>Allergies stays</li></ul></li><li>2.2<ul><li>CEIL Dic to 2.2</li><li>Improvement and permissions</li></ul></li></ul> |
|---|---|---|---|
| | RA-328 | | <ul><li>Needs a new developer as the previous one seems to have unassigned himself.</li></ul> |
| | OCL-CIEL Subscription Module | | <ul><li>Will need design call amount time</li><li>Work will be assigned soon</li><li>Rafa Korytkowski might need to lead or put his effort into this in some way</li><li>Expectation 2.2</li><li>Nice to have: Design by September</li><li></li></ul> |
| | Work Process | | Development Work Flows<br><ul><li>Make sure we add a BA section to help get some TW best practices in. Make sure we get some documentation or suggestions from Unknown User (shasha)</li></ul> |

## Action items

- ☐ Unknown User (shasha) and Daniel Kayiwa - Keep track on progress on this sprint, is there a backlog in the "ready to test column" etc
- ☐ Wyclif Luyima Place 1.10 into Production - Discuss this with the Bahmani team to see if they are ready
- ☐ Daniel Kayiwa get a list together of outstanding 1.11 issues to help push them to test the issue.  So that we can get their organization to help resolve.
- ☑ Burke Mamlin , Wyclif Luyima, Unknown User (darius), and Unknown User (cpower) to discuss how to find leaders for the work on Road map work.
