

# 2006-06-08 Developers Conference Call

<html><head><title></title></head><body>\* Discuss issues with synchronizing disparate instances of OpenMRS

- - discussed shadowing vs. remote data entry (scope of synchronization support)
  - just touched on this, talk more later
- Locale support — Darius to explain his "easy way out"
  - discussed
- Discuss timeline of obs\_group\_ids and HL7 A28 messages (so that PIH can give a timeline to our VP)
  - 1-2 weeks

</body></html>
