Task

- [\[TRUNK-4900\]](#) - Travis CI buffer overflow in openjdk6

Who is this release meant for?

This Release is most importantly prepared to run on a Reference Application instance of openmrs, we hope to have the same platform in 2.2, however you can still obtain it as a legacy application by using the standalone.

Community Input

Lots of thanks to all our great contributors that have made this release a success, including: [Unknown User \(gwasilwa\)](#) , [Daniel Kayiwa](#) and [Unknown User \(henziger\)](#) among others.
