

# Using OpenMRS

End user documentation for OpenMRS is currently limited. We welcome any assistance in adding content to this section.

All OpenMRS users must authenticate to the system using a username and password. If you do not know your username, you should contact your system administrator. If you have forgotten your password, the system may allow you to reset your password by using a secret question mechanism.

A screenshot of the OpenMRS login page. At the top, there is a green navigation bar with links for 'Home', 'Find Patient', and 'Dictionary'. Below the navigation bar is the OpenMRS logo, which consists of a stylized cross with four colored segments (red, green, blue, orange) and the text 'OpenMRS MEDICAL RECORD SYSTEM'. Below the logo, there is a welcome message: 'Welcome to Openmrs. Please login to proceed.' Underneath the message are two input fields: 'Username:' and 'Password:'. Each field has a small red 'x' icon on the right side. Below the password field is a 'Log In' button and a link that says 'I forgot my password'.

## OpenMRS for...

- Data Assistants
- Data Managers
- Providers
