

Documentation RoadMap

The purpose of this section is to provide guidelines on how community members can contribute to development of documentation for our applications.

What is Openmrs Documentation Roadmap?

Documentation Roadmap is the Ongoing record of processes, procedures and documents for Self-Study, Implementation purposes and follow up.

Steps in development:

- Explore Organization Guides, reports, policies and procedures for use in documentation roadmap.
- Enter documents into Roadmap.
- Analyze for gaps related to Standards, Criteria, Strategic Plan.

Projects

	Project(s)	Description	Status	Point of Contact	Comments
1.	Developing User Friendly Github Documentation for REST API	We currently have a REST API document that is not well structured. As a result users of the documentation struggle to understand how to use the REST API. We would want our documentation to be structured in a easy to follow manner	IN PROGRESS	Burke Mamlin	.
2	Review and Refactor existing wiki to be more User profile driven	Improve documentation to be better geared towards non technical users.	IN PROGRESS	Cynthia Antwi	
3	Developing a Documentation Guide	Create a guide to help the community around best practices for creating software documentation in openmrs.	REVIEW PROCESS	Juliet Wamalwa	The guide can be access on wiki on this link Open MRS Documentation Guide
4	Developing a Suite of Volunteer Guides	Create documentation to compile into a set of Volunteer Guides to support those taking on volunteer roles in the community, and reduce the overhead and dependency on mentors assisting new volunteers in these roles.	GATHERING INFORMATION	Jennifer Antilla	
5	Developing sustainable approaches to avoiding entropy in OpenMRS documentation	Develop a suitable approach to avoid duplication of information available on wiki and Gitbook .	TBD	TBD
