- Paul Biondich

Apologies: Jan and Chris (traveling)
Agenda/Notes
Maputo Update

- Current registration numbers:

  - Early Bird 5

  - Regular 39

  - Late 46

  - Event Staff 8

  - Guest Pass 5

  - Hackathon registrations: 47

- Hackathon is a no charge event but does have a cost ~5k so we need to coordinate these events a bit better to make sure these donated events we get good use of our money.

- Next step: Talk about what type of hackathon models we could potentially use

- Michael Downey will be hosting an unconference session on the summit and hopes all will be able to attend

- WIll be building a network through texting to communicate with each other during the conference and where people are meeting

- Bill suggests posting a map of Maputo and noting where the hotels are. Then below that adding peoples Maputo numbers so it is available for all attendees so no one feels left out.

Sponsorship

- 40k - ThoughtWorks and Google sponsorship

- there may be a chance to reimburse some of those scholarship applicants that are already attending

- Next step: on future call talk about sponsorship distribution (late sponsorship lead to less scholarships how do we want to plan better and create a model to follow)

Community Roles (action matrix)

- Reviewed revised version of Paul's wiki page "OpenMRS COmmunity Roles" - https://wiki.openmrs.org/display/~paul/OpenMRS+Community+Roles
  - Note - Comments on this docuemtn can be posted at the bottom of the page
- Andy suggests moving "Documentation" down under "Implementer and End User Support"

Long term support for content (ie. CIEL dictonary)

- looking for a sustainability model to come out of Maputo
- partnership aspect for service level agreements
- discuss around those who are leveraging content metadata helping to support
- Andy will address sustainability models with community and the board
- Judy will be in Maputo (will be Andy at the meeting :)
