- Darius Jazayeri
- Burke Mamlin
- Chris Seebregts
- Dawn Smith

## Agenda

Topic	Topic Leader (s)	Time	Category
Rwanda ehealth Architecture	<a href="#">Hamish Fraser</a>	30min	Community
Re-Organizing Calls Update	<a href="#">Darius Jazayeri</a>	15min	Community
NGO Updates	<a href="#">Dawn Seymour</a>	5 min	NGO
Conference Updates	<a href="#">Dawn Seymour</a>	5 min	Conferences

## Meeting Minutes

- Rwanda ehealth Architecture
  - Paul: HI-PPP is emerging an implementation plan to improve maternal health outcomes
  - Chris: Recommendations were made to the ministry around the adoption of certain standards
    - We need to work through the use cases and implementation science to add value to the outcomes of maternal and child health
  - Hamish: Difficulty is getting information on where the architecture is going and to get clarity
- Re-Organizing Calls Update
  - Darius: Still need feedback from Andy and Chris S. on input for re-organizing OpenMRS calls
  - Summary:
    - Leadership: includes project management
      - 1.5 hrs/wk total: 1hr weekly leadership call then 30min before or after for project management
    - Community: overlap with implementers, users, developers, external devs
      - 1hr/wk total: can include features/feature requirements, implementers showcase, consumers of OpenMRS can talk about plans, WIP/demos, GSoC (1 student per call to do a showcase)
    - Developers: day-to-day and core devs
      - 3-4hrs/wk total: can include design/how to implement design, development, code review, GSoC
  - Paul: Important to have a shared responsibility on the calls and decision. Encourage leadership from others
  - Chris S.: Participative Management Style - using peer review to talk about performance on an individual basis but also as an organization
  - Hamish: It would be good to have a process around this. It can be difficult to elicit feedback, but we need to find a way to engage individuals other than leadership to grow the organization
  - Discussion Point: How can we open up design call discussions to the community, but still have a high-level discussion for core devs
    - Burke: How do we make the meeting more transparent? Documentation and taking that to the community
    - Darius: We need to find a call to invite Mike and Jeremy
    - Chris S.: Appoint one person of contact in Jembi to join the design call as well
- NGO Updates
- Conference Updates
