

# Community Development Status

As a community, OpenMRS dedicates resources toward our [Community Development Swim Lane](#) and directs new developers in the community toward prioritized tickets on the [Getting Started as a Developer](#) page. This page was created to help us monitor our progress on curating and tackling community priorities outside of the [Technical Roadmap](#) process.

## Platform Builds

## Reference Application Builds

In the past week, there were [0 issues](#) community priorities closed and [0 issues](#) newly created.

## Current Priorities

| Key        | Summary  | T | Created    | Assignee        | P | Status          | Updated    |
|------------|--|---|------------|-----------------|---|-----------------|------------|
| RA-452     | XSS vulnerabilities in Ref App 2.x                             |   | 2014-10-20 | Unassigned      |   | WAITING FOR DEV | 2019-04-29 |
| HTML-650   | The HTML Form ExitFromCare tag doesn't work in the 2.x UI      |   | 2016-11-08 | Unassigned      |   | READY FOR WORK  | 2019-12-05 |
| RA-1350    | Edit all the information inserted in Patient Registration Form |   | 2017-04-12 | Unassigned      |   | IN BACKLOG      | 2019-08-21 |
| RA-1359    | Enable Dashboard Widgets to be created in other modules        |   | 2017-05-10 | Unassigned      |   | WAITING FOR DEV | 2019-04-29 |
| TRUNK-5409 | Implement DosingInstructions to ChemoDosingInstructions        |   | 2018-07-28 | Kakumirizi Daud |   | REOPENED        | 2019-08-11 |
