### OpenMRS Developers Forum 2015-03-26

Audio recording: <http://goo.gl/wXCSe7> Flash recording: <https://connect.iu.edu/p9pv2h80ti4/>

#### Attendees:

- Darius Jazayeri
- Wyclif Luyima
- Jamie Thomas
- Michael Downey
- Mark Goodrich
- Andy Kanter (CIEL)
- Daniel Kayiwa
- Dave DeSimone
- Ellen Ball
- Emily Ellison Taylor
- Howard Francis
- Mike \_\_
- Sandeep Raparathi
- Sara Armson
- Jon Payne (OCL)
- Sashrika \_\_
- Tharunya \_\_
- tmueller \_\_
- Ada \_\_

- Ryan Yates
- Maurya
- Serghei Luchianov

#### Agenda & Meeting Notes

- Review last week TODOs - <https://notes.openmrs.org/Developers-Forum-2015-03-19>
  - None listed last week
  - TODO: **Burke** to define the explicit Upstream coordinator role and look for someone(s) to fill it (follow up) - this is in progress (Paul)
  - TODO: **Suranga to follow up on someone** to See if we could make a script to Create a database/table/document to track libraries (someone?). Joseph Kaweesi was working on a module to show dependencies. A script would do it better (but still we would need a way of getting the updates from the database to the user, this is what the module was lke doing), in the first place i had tried instead to do some sort of module that would do the reporting of dependency updates. I can work on the script still
  - ~~TODO: give **someone** the authority to run with Spring — i.e., Burke will reply to existing dev thread and see if someone (Luis, Kirs, others) who wants to dig into Spring. — this is also in progress (Paul)~~
  - TODO: **Jeff Rafter** looking at Adapting GitHub-Discourse badge code [https://github.com/discourse/github\\_badges/blob/master/plugin.rb](https://github.com/discourse/github_badges/blob/master/plugin.rb) to our needs
    - In process (now Saptarshi)
  - TODO: **Saptarshi** spec out a Moodle server based on our usage plans (**test server is up, starting to develop question content**)
    - In process, reviewing & refining dev quiz questions
  - TODO: **Saptarshi** figure out how to get data out of Moodle (**see above**)
    - In process see above
  - TODO: "**Someone**" to Evaluate whether we can use sonar findbugs, and add the additional security rules
  - TODO: **Someone** to Assist Sherif with setting up openmrs with a commercial security tool => need to make sure someone is in contact with him. Check with **Rafal?(Jamie following up w/ Rafal)**
  - TODO: **Jamie Thomas** to Invite Bahmni team to present their OpenERP integration as a form of billing support OOB for OpenMRS RA (Jamie trying to schedule for May 7)
- Open Concept Lab Showcase
  - <https://dl.dropboxusercontent.com/u/77214/2015-03-26%20OCL%20OpenMRS%20Dev%20Forum.pptx>
- Update on OpenMRS 2.2
  - Maurya will email today asking people to test out the current code on a UAT server
  - We also need people to help review/revise documentation
- ~~Reviewing emerging technologies~~
  - ~~??~~
  - ~~Robots~~
  - ~~AI~~
  - ~~Electric cars~~
  - Skipped this topic because we don't know what it means :-)
- After Action Review
  - What did you expect to happen?
    - DJ: I expected someone on the call to know what "Reviewing emerging technologies" was about
  - What actually happened?
    - DJ: Nobody knew what "Reviewing emerging technologies" was about
  - What can we do different?
    - Capture more details during topic fest about what accepted topic suggestions mean
    - Have an owner for each topic

- Preview next week
  - Topic Fest
    - Let's be sure to practice adding an owner to each topic
  - Sprint updates
  - OpenMRS in Docker

#### To Dos

- ~~[Darius] Email the dev list telling people they can give updates on WIP next week~~
- [JT] Email Burke and ensure he can lead "OpenMRS in Docker" next week

## TODOs

### Outstanding TODOs (0 issues)

Summary Assignee Created Due
