

# 2016-08-04 Developers Forum

## How to Join

### By Browser

- <https://www.uberconference.com/openmrs>

### By telephone

- US telephone number: **+1 201.479.2627**

## Agenda

- Quickly review previous meeting minutes (5 min)
- Review next meeting agenda

## Minutes

### Attendees:

Rafa Korytkowski  
Ada  
Wyclif  
Maurya  
Burke  
Darius (late)

### Agenda

Open Web Apps and UI Components w/ Rafal Korytkowski

Standalone OWA <https://github.com/rkorytkowski/openmrs-owa-conceptdictionary>

OWA embedded in a module: <https://github.com/openmrs/openmrs-module-metadatamapping/tree/master/owa>

The better pattern for developing components: <https://github.com/openmrs/openmrs-module-metadatamapping/tree/master/owa/app/js/home> (self-contained components)

The less ideal pattern: <https://github.com/rkorytkowski/openmrs-owa-conceptdictionary/tree/master/app/components/classList> (do not follow :)

OWAs published at:

<https://bintray.com/openmrs/owa>

super easy using travis-ci: <https://github.com/rkorytkowski/openmrs-owa-conceptdictionary/blob/master/.travis.yml#L19-L25>

Demo built off master by travis-ci using: <https://github.com/rkorytkowski/openmrs-owa-conceptdictionary/blob/master/deploy.sh> and deployed to github

pages at <http://rkorytkowski.github.io/openmrs-owa-conceptdictionary/#/>

Reference Application 2.5 - Release Manager

Questions/Comments:

- Please use something else (like a spinner) for the spinner icon. The spinning OpenMRS icon is cute, but I don't think it's wise to associate the OpenMRS brand with waiting for something to happening. We should change this in the REST documentation and avoid spreading the OpenMRS logo spinner to any other applications.
- Is the owa pom.xml the same for each module that wants to include owa?
  - Yes. As long as you use yoeman generator scaffolding
- Can you include multiple owa packages?
  - Raff believes so, but hasn't tested it.

## TODOs

### Outstanding TODOs (0 issues)

Summary Assignee Created Due

No issues found

Create a TODO: <http://go.openmrs.org/todo>

## Transcripts

- Audio recording of the call: Listen online or download (available after the meeting)
