

Platform Release Notes 1.11.4

Release Date: Wednesday September 23rd 2015

This version of the OpenMRS Platform is not intended for use by implementations running reference application other than OpenMRS 2.2 and above, because it has several incompatible changes that will break some modules.

What's New

This release is "OpenMRS Platform 1.11.4" and is a maintenance release version of the under-the-hood OpenMRS API that follows 1.11.3. There some database changes between this version and 1.11.3 introduced in [TRUNK-4727](#) and [TRUNK-4743](#).

For the time being, we are in an awkward phase, where the legacy UI remains within the OpenMRS Platform and the new OpenMRS UI has not fully replaced the legacy UI. As a result, many implementations will continue to use the platform without the new web application and people will continue to be confused by the naming of "OpenMRS Platform". We are working hard to resolve this by OpenMRS 2.4, when implementations will be able to upgrade into the new application and the legacy UI can be retired from the platform.

To upgrade from a pre 1.10 version, you will certainly need to read [Prepare for Upgrading From a Pre-1.10 to 1.10 or Later Version](#)

Bug Fixes

Key	Summary	Assignee	Reporter
TRUNK-4745	UpdateFilter should not depend on InitializationFilter being initialized before it	Daniel Kayiwa	Daniel Kayiwa
TRUNK-4748	MessageSources should not be transactional	Daniel Kayiwa	Wyclif Luyima
TRUNK-4743	Create missing database indexes	Stefan Neuhaus	Rafal Korytkowski
TRUNK-4669	Blank Concept Information Page	Daniel Kayiwa	Sam Dale
TRUNK-4731	Task throws and Exception error when stopping a related module	Wesley Brown	Benjamin Mulyungi
TRUNK-4757	Inconsistent error messages reported about new patient's age	Xiang Li	Xiang Li
TRUNK-4746	Default error handlers should display the appropriate error message	Daniel Kayiwa	Daniel Kayiwa
TRUNK-4635	Cancel button doesn't allow to exit Creating New Concept Page	Aashna Garg	Ada Yeung
TRUNK-4724	BeanCreationException during spring application context refresh should stop loading of the application	Daniel Kayiwa	Daniel Kayiwa
TRUNK-4683	TRUNK-4630 fix still have issue	Alexei Grigoriev	sorcerer stone
TRUNK-4741	Corrected message_es properties file for spanish	Judy Gichoya	Judy Gichoya
TRUNK-4721	Performance issue with version of H2 that we are using	Mark Goodrich	Mark Goodrich
TRUNK-4691	Concept and ConceptService.saveConcept should automatically set the value of "is_set"	Michael Hofer	Darius Jazayeri
TRUNK-4675	Italian Create Patient Label displayed in English	Sam Dale	Sam Dale
TRUNK-4354	Retired Location Attributes are shown when editing a Location or adding a new Location	Pawe Muchowski	James Arbaugh

Who is this release meant for?

Implementations that are running OpenMRS 2.2 or implementations that are running plain OpenMRS Platform and want to upgrade to the latest stable release.

Community Input

A huge thanks to the people that contributed code to this release including [Xiang Li](#), [Stefan Neuhaus](#), [Judy Gichoya](#), [Wesley Brown](#), [Chethan A](#), [Mark Goodrich](#), [Michael Hofer](#), [Alexei Grigoriev](#), [Sam Dale](#), [Imran Tatriev](#), [Yousef Hamza](#), [Pawe Muchowski](#), [Daniel Kayiwa](#).

Not to mention all the people that contributed in countless other ways to support this release and be a great part of the shaping it including [Burke Mamlin](#), [Darius Jazayeri](#), [Wyclif Luyima](#), [Rafal Korytkowski](#), [Michael Downey](#) and the whole infrastructure team!

We welcome any user to download OpenMRS 1.11.4 and try it out, give us feedback.

If you to run into any bugs, send a message via [talk](#) or [create a new JIRA ticket](#) (click upper right icon).
