- Last Week's Notes
- Updates: 1.1, 2.1 / Allergies, OCL-CEIL

Discussion items

Time	Item	Who	Notes
	Community Development Calendar	Wyclif Luyima	the community development calendar is out of date and needs updated
	Allergies	Shasha Liu	- sorting alphabetical and not including duplicaties in the immediate todo lists - API level should not allow duplicates in allergies list TRUNK-4498 - The API should not allow duplicate entries for an allergen `CLOSED` - Add list of allergens and reactions RA-347 - Tech Story: Add list of allergens and reactions `ACCEPTED`
	1.10		- Blocker: bug around order entry and privileges to record stuff TRUNK-4496 - Saving an order should not require sql level access privilege `CLOSED` - Bahmni picked this ticket up - Should release 1.10.1 when this bug is fixed
	2.1		- release is scheduled for tomorrow (9/30) - one nice new feature in allergies focus was on the release process - a few modules that also need released - HTML form entry release is blocked (test broken) on ticket about 1.10 (assigned to Rafa Korytkowski) HTML-523 - Html form entry should support the latest changes in 1.10 `CLOSED` - need to get allergies to releaseable state (two tickets noted above)
	OCL-CIEL	Burke Mamlin	- This is the next priority - Shasha Liu is editing tickets - Darius and Burke had talk with itech team today and this is definitely a priority.
	AOB		- Shasha will be out from 9/30 - 10/14 - AMR API needs release - Burke will also be out 10/2 & 10/3
