OCL for OpenMRS Weekly Meetings

Expectations for OCL for OpenMRS Squad Meeting Notes

We use Etherpad for real time. This means that everyone attending a meeting monitors and contributes to the note taking! We strive to make sure that:

• the meeting agenda is included in the notes at the beginning of the meeting
• someone is tracking the time so we cover the agenda items
• we document important decision points - and their rationale
• individuals are encouraged to add important points to the notes themselves
• a summary of TODO items for next meeting is provided

Previous meeting notes and recordings

March 2020

• 2020-03-05: OCL for OpenMRS minutes
• 2020-03-11: OCL for OpenMRS minutes
