

Nightly Releases

These war files are built every night automatically off of the code in our openmrs-core git repository. If the database schema has changed, you may need to apply changes to your database. (Note: The files are only built if there was a commit to the repository within the past 24 hours).

Download

Current nightly releases are available at: <http://sourceforge.net/projects/openmrs/files/nightly/>

OpenMRS

Files from OpenMRS OpenMRS is a community-developed, open source, enterprise electronic medical record system. Our mission is to improve health care delivery in resource-constrained environments by coordinating a global community to creates and support this software.
