## Action items

- [Sri Maurya Kummamuru](#) will reach out to Bahmni team to find out who can represent the team as maintenance 2.0 release manager
- [Darius Jazayeri](#) to us the source of his PM tool – <http://104.131.56.36/#/pm>
- getting code and updating it to look at current releases
- adding some features to specifically pull in where work is happening
- look at the people spending bulk of time on OpenMRS priorities and what issues are assigned to them
- need to create process for deciding on community process
