

# 2009-06-18 Developers Conference Call

## Date

18 June 2009

## In Attendance

- Mike Seaton
- Ben Wolfe
- Darius Jazayeri
- Burke Mamlin

## Agenda

- Sync Updates
- Active lists project

## Minutes

- Active lists
  - Point of project is to bring allergy lists and problem list table to openmrs
  - Do we just add those tables or make something more general?
  - Upul is working on ticket 73 while this decision is being made
- Sync Updates
  - The ability to mark a module as mandatory was added to trunk
  - The ability to add a hibernate interceptor by a module was added to trunk
  - The last step we need now is to get sync out of a branch and into a module
    - We need a hackathon to get it into a module
      - Maros to create tickets for it?
      - Identify places that need improvement, what to move where, etc
      - Maros needs to pick a date in July to have the hackathon
