

# Release Notes-1.3.3

For a list of current OpenMRS releases, see [Release Note Import](#)

Be sure to run the associated update-to-latest.mysqldiff.sql file. This updates the database to have the tables and columns to what is expected by the OpenMRS application.

## Release Date

- Dec 18th 2008

## Bug Fixes

- Fixed the data export cohort columns - See [#1166](#)
- Fixed the manage observations page initial load ([archive:[TRAC-1018 @ticket](#)] and link to encounters ([#1042](#))
- Fixed the login redirect when going to the a non-homepage [#1058](#)

The [1.3.0](#), [1.3.1](#), and [1.3.2 Release Notes](#) pages show all the changes/enhancements in the 1.3 line.
