Frontend - SPA and Microfrontends

How does this project fit with the strategy?

Burke and others describe the strategy in https://talk.openmrs.org/t/an-amazing-future-for-openmrs/22328

Our decision making process is an RFC (Request For Comments). All major decisions are made through github pull requests where anyone can comment. See https://github.com/openmrs/openmrs-rfc-frontend.

Collaboration conventions:

PR Approval Process:
@mfsquad to agree on the following with regards to PRs: (1) After a PR is done, the creator of the PR will assign it to a squad member within 24 hours. The squad member will then have 1 week to provide feedback or approve the PR.

Design System Process:
The general plan is once a widget is designed, a ticket will be created in Jira on the MF board. For work that is being done on figma a board has been created in Trello.
