Meeting Notes and Recordings

Expectations for Technical Skills Development Team Meeting Notes

We have a dedicated note-taker for each meeting who is responsible for note taking. Notes are circulate to squad members for review. We strive to make sure that:

- the meeting agenda is included the notes at the beginning of the meeting
- someone is tracking the time so we cover the agenda items
- we document important decision points - and their rationale
- individuals are encouraged to add important points to the notes
- a summary of action items for next meeting is provided

Meeting notes and recordings are posted to Technical Skills Development Team Weekly Meeting page.
