Administering Concepts

Resources

- OpenMRS currently recommends working with trusted resources around concept management. There is a project called OpenMRS dictionary manager which provides a way to leverage the Open Concept Lab (www.openconceptlab.org) to manage your concept dictionary in the cloud.
- Discuss on the Implementers Mailing List
- See Concept Best Practices and Advanced Concept Dictionary Topics for conventions
- Look at the Reference Application for examples
- Take a look at the Form Bank for examples of how people are using concepts in forms
- Look at archetypes in the OpenEHR community

Child pages
